

MD SOHRAB

AI/ML Engineer | Generative AI | FastAPI

☎ 01616039067 ✉ hi.mdsohrab@gmail.com 🔗 LinkedIn 🐙 GitHub 📍 Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with a strong foundation in **Python, Machine Learning, Deep Learning, Generative AI**, and **FastAPI**. Seeking an entry-level AI/ML Engineer role to apply practical skills in developing intelligent solutions and building AI-powered applications while continuously growing in the field of **Artificial Intelligence**.

TECHNICAL SKILLS

Programming Languages : Python, C, C++
AI/ML : Machine Learning, Deep Learning, Generative AI
Frameworks & Libraries : FastAPI, LangChain
Tools & Platforms : Git, GitHub, Docker, Postman
Databases : PostgreSQL, MySQL

PROJECTS

AI Assistant — LangChain Chatbot | 🐙 Github 🌐 Live Demo Aug 2026 - Present
AI/ML Developer | Individual Project

- Developed an AI-powered chatbot using LangChain and Groq with intelligent query routing for Programming, Mathematics, and General queries.
- Implemented RunnableBranch for specialized query processing and RunnableParallel for parallel answer and summary generation with Pydantic-validated structured outputs.
- Built a Streamlit interface with chat history, response classification, confidence scoring, and error handling, and deployed the application using Streamlit Community Cloud.

Technologies : Python, LangChain, Groq, Streamlit, Pydantic

Expense Tracker API | 🐙 Github 🌐 Live Demo Sep 2026 - Present
Backend Developer | Individual Project

- Developed a RESTful Expense Tracker API with JWT-based authentication, secure password hashing, and user-specific transaction management.
- Implemented CRUD operations and transaction filtering by type, category, and amount using FastAPI and SQLAlchemy.
- Integrated PostgreSQL with Supabase, implemented Pytest-based API testing, and deployed the application on Render with interactive Swagger documentation.

Technologies : Python, FastAPI, SQLAlchemy, PostgreSQL, JWT

EDUCATION

B.Sc. in Computer Science and Engineering Aug 2022 - Aug 2026
Uttara University, Dhaka CGPA : 3.75/4.00

COURSES & TRAINING

CSE Fundamentals Course

Phitron.io

Python, C, C++, Data Structures & Algorithms, OOP, Database, HTML, CSS, and JavaScript.

AI/ML Course

Phitron.io

Basic Math for ML, Machine Learning, Deep Learning, Advanced Deep Learning, Generative AI, and FastAPI.

Spoken English Course

Banglay IELTS

Spoken English and practical English communication skills.
